

(TS//SI//NF) FAIRVIEW: CLIFFSIDE Site - Collection Resumes After ~5 Months

By [REDACTED] on 2011-08-23 0805

(TS//SI//NF) On 5 Aug 2011, collection of DNR and DNI traffic at the FAIRVIEW CLIFFSIDE trans-pacific cable site resumed, after being down for approximately five months. Collection operations at CLIFFSIDE had been down since 11 March 2011, due to the cable damage as a result of the earthquake off of the coast of Japan. The initial damage assessment showed the loss of collection of 275 E1 DNR circuits and 55 DNI circuits. Since the cable was repaired and returned to service (5 Aug), FAIRVIEW operations has tasked 205 E1 DNR circuits and 37 DNI circuits for collection. Environmental survey continues to compare the old environment footprint to the new environment footprint and FAIRVIEW operations will continue to task collection for all new and restored circuits.
