

(TS//SI//REL FVEY) FAIRVIEW Tour
By [REDACTED] on 2012-03-28 1333

(TS//SI//REL FVEY) On 23 March, S3 and GAO Technical Directors: S3 - [REDACTED], [REDACTED] GAO - [REDACTED] and [REDACTED], and SV SIGINT Compliance and Architecture Lead [REDACTED], attended the FAIRVIEW partner provided tour of one of the program's east coast cable stations (NASSAU SHORE) and the program's centralized processing SCIF (PINECONE). A short FAIRVIEW overview was provided which led into an in-depth technical discussion regarding the program's vast access & collection infrastructure, the varying data flows (i.e., DNI, DNR, CDRs, etc.) to include program authorities, budget constraints, sensor deployments (ETML, VANGUARD and NETFLOW), and endpoint-midpoint shaping activities and future opportunities in partnership with organizations such as TAO, NCSC and other IC elements such as the FBI, DEA and the CIA. The partner also provided a briefing on company/USG activities outside of FAIRVIEW (i.e., NEST, DIB Pilot) and expounded on current and future program Cyber plans. The day was extremely successful and broadened their understanding of this unique Government/Partner relationship, highlighted the Partner's ability and willingness to help with NSA's SIGINT and Cyber missions, provided insight into the breadth and depth of the program's access and showcased the highly collaborative nature of the FAIRVIEW partner and the value of their intellectual capital.

POC: [REDACTED] FAIRVIEW Program Director, [REDACTED]
